

TECHNICAL DATA SHEET

PA POWER ACTION DEFOAMER RJ-1001

RJ-1001 is a 100% active, general purpose antifoam for use with most metalworking fluid systems. This product provides outstanding performance and compatibility with various fluids including vegetable, synthetic, and semi-synthetic oils.

RJ-1001 was developed with a synergistic blend of green chemistries for high performance.

RJ-1001 is based on new organic and inorganic complexes which are specifically formulated to enter neat solutions without interference to the chemical balance of the fluid system.

RJ-1001 is modified to effectively clean off with the emulsion in the metal preparation solution and will not cause problems with coatings and other processes.

Recommended dosage rates of 0.1 to 0.3 can be expected.

Specific Gravity	1.03
pH	7.6
Solids	100%
Appearance	White Opaque Fluid
Water Solubility	Dispersible
